EXTENSION**Program Statement**

The focus of my Extension and outreach programs at Mississippi State University is on horticultural marketing and policy. On the marketing side, my work has covered value-added and sustainable agriculture including local and regional food systems. On the policy side, I have worked on detangling the implications of the 2014 Farm Bill and the Food Safety Modernization Act (FSMA) for the U.S. specialty crop industry. I collaborate with nationally recognized programs, such as Market Maker, Market Ready, and Farm-to-School, and also rely on my applied research efforts to feed my Extension programs, which I deliver using both face-to-face meetings and online tools. Stakeholders for these Extension programs include specialty crop growers, public and private organizations working with the specialty crop industry, farmers' market managers, advocates, and other Extension specialists state and nationwide.
