

MISSISSIPPI STATE UNIVERSITY™

Department of Agricultural Economics

Minor in Environmental Economics and Management

The Department of Agricultural Economics offers a minor in Environmental Economics and Management to provide students with fundamental knowledge of economic and management principles relevant to environmental and resource policy issues to enhance their potential career opportunities. Only students outside the Department of Agricultural Economics are eligible for the minor in Environmental Economics and Management.

A minor in Environmental Economics and Management is attained by completing at least 18 hours of environmental and resource economics courses. To qualify for a minor, students must maintain a 2.0 average or better in courses taken to satisfy the requirements for the minor. Students may choose among the following (please note that students are responsible for satisfying appropriate prerequisites):

Required (12 hours):

- AEC 2713 Introduction to Food and Resource Economics (or EC 2123 Principles of Microeconomics)
- AEC 3233 Introduction to Environmental Economics and Policy
- AEC 4233 Environmental Economics
- AEC 4243 Natural Resource Economics

In addition, choose at least two of the following (6 hours):

- AEC 3113 Introduction to Quantitative Economics
- AEC 3513 Economics of Food and Fiber Production
- AEC 4123 Financial and Commodity Futures Marketing
- AEC 4413 Public Problems of Agriculture

Students are responsible for satisfying all prerequisites before registering for courses. A grade of C or better must be earned in each course to be counted toward the minor.
